

AVANPRO

AP-4K

Clinical Centrifuge

The **AP-4K** clinical centrifuge is ideal for clinical laboratories, blood banks, biochemistry, cell biology, and molecular biology. It can reach up to 4,000 revolutions per minute and includes multiple adapters for different capacities. The **AP-4K** is simple to operate and will notify the user after process completion. The maintenance free motor and simple operation make the **AP-4K** the ideal centrifuge.

AVANPRO is the registered trademark of **AVANPRO, Corp.** Avanpro follows a policy of continuous innovation. Product designs and specifications are subject to change without notice.

AP-4K

Clinical Centrifuge

TECHNICAL DATA

Speed	300 - 4000 RPM
Max. RFC	2460 xg
timer	15 seconds - 99 minutes
Rotor capacity	12 x 1.5 / 2ml / 3ml / 4ml / 5ml / 6ml / 7ml / 10ml / 15ml tubes
Noise level	< 60 dB
Operating environment	4° - 40° C / 41° - 104° F
Power supply	110-240V, 50/60 Hz
Dimensions	380 x 320 x 180mm / 14.96" x 12.59" x 7.08"
Weight	11kg / 24.3lb
Warranty	1 Year

ACCESSORIES INCLUDED:

- 12 adapters for 1.5ml/2ml
- 12 adapters for 2ml/3ml/4ml
- 12 adapters for 5ml/6ml/7ml
- C-13000 fixed angle rotor for 12 tubes 10ml/15ml
- Power adapter
