

AVANPRO

AP-4MP

Manual Polarimeter

The **AP-4MP** manual polarimeter is easy to use and offer a wide measuring range. Its large eyepiece allows the user to observe the distinct visual fields. Reading and recording measured values on the **AP-4MP** is straightforward, allowing quick familiarization when operating the device.

AVANPRO is the registered trademark of **AVANPRO, Corp.** Avanpro follows a policy of continuous innovation. Product designs and specifications are subject to change without notice.

AP-4MP

Manual Polarimeter

TECHNICAL DATA

Measuring Range	-180° ~ 180°
Scale Value	1°
Vernier	0.05°
Magnifier	3X
Light Source	Sodium lamp
Wavelength	589nm
Test Tube Length	50, 100 or 200mm
Dimensions	500 x 135 x 330mm / 19.6" x 5.3" x 13"
Power supply	100 ~ 240 V AC, 50/60 Hz
Weight	5kg / 11lb
Warranty	1 Year

ACCESSORIES INCLUDED:

- Two sample tubes (100, 200mm)
- Sealing rings
- Power adapter
