## AP-DS900

Infrared Sterilizer

The **AP-DS900** infrared sterilizer is a sleek yet powerful device. Its compact design and simple operation make it the ideal device for demanding laboratories. The **AP-DS900** can be used in anaerobic chambers for a wide range of applications like the sterilization of inoculating loops, inoculating needles or culture tube mouths.

AVANPRO is the registered trademark of **AVANPRO, Corp.** Avanpro follows a policy of continuous innovation. Product designs and specifications are subject to change without notice.

# AP-DS900

Infrared Sterilizer

## TECHNICAL DATA

<b>Sterilization procedure</b>	Infrared
<b>Temperature range</b>	- Min.: 50 °C (122 °F) - Max.: 825 °C (1,517 °F)
<b>Constant temperature</b>	400 °C / 825 °C (752 °F / 1,517 °F)
<b>Sterilization diameter</b>	Ø 14mm
<b>Sterilizer length</b>	150mm
<b>Heating time</b>	10 min.
<b>Operating environment</b>	5° - 40°C / 41° - 104°F
<b>Relative humidity</b>	-90%
<b>Power supply</b>	110-240V, 50/60 HZ (150W)
<b>Dimensions</b>	175 x 130 x 185 mm / 7 " x 5.1" x 7.3"
<b>Weight</b>	1.3kg / 2.9lb
<b>Warranty</b>	1 Year

### ACCESSORIES INCLUDED:

- Power adapter
