## BSM-3

Stereo Microscope

The **BSM-3** stereo microscope is the ideal device for the educational sector and covers basic procedures in higher education. Its Greenough design allows three-dimensional observation of samples. The **BSM-3** is ideal for electronics, jewelry design, classification of entomology and the categorization of organisms.

AVANPRO is the registered trademark of **AVANPRO, Corp.** Avanpro follows a policy of continuous innovation. Product designs and specifications are subject to change without notice.

# BSM-3

## Stereo Microscope

Height adjustment is carried out using the coarse and fine focusing knobs on both sides of the unit. Its Greenough design allows users threedimensional observation of the sample. A protective dust cover, eye cups, as well as the user manual are included with the microscope

### TECHNICAL DATA

|                     |  |
|---------------------|--|
| <b>Eyepieces</b>    | WF 10 X/20 mm, equipped with a diopter adjustment ring                             |
| <b>Head</b>         | Binocular, 45° inclined. Interpupillary distance adjustment                        |
| <b>Objectives</b>   | Selectable 2X / 4X (20 and 40 total increases)                                     |
| <b>Stage</b>        | Interchangeable between translucent white, double side white/black and stage clips |
| <b>Focus</b>        | Coarse and fine, anti-slip, tension adjustment knobs                               |
| <b>Illumination</b> | Transmitted and incident LED light with independent intensity control              |
| <b>Dimensions</b>   | 200 x 357 x 260mm / 8" x 14" x 10.3"   |
| <b>Power supply</b> | 110/240V, 50/60 Hz, power adapter  |
| <b>Weight</b>       | 4.5kg / 10lb   |
| <b>Warranty</b>     | 7 Year   |

#### ACCESSORIES INCLUDED:

- Dust cover
- Power adapter
